

## Legislative Update #6 2015 Legislative Session – Day 43 February 23, 2015

The Senate Transportation Committee passed their bipartisan transportation package out of committee. The bipartisan package included three transportation revenue and spending bills together with six policy bills. Two additional policy bills were passed out with only majority coalition votes. Several amendments were offered with few passing. An amendment that would set a local revenue options at Sound Transit's request was not adopted. Amendments that would have eliminated a requirement that reform bills needed to pass for revenues to be allocated to transit did not pass either.

Of interest to counties, two amendments were offered by Senator Sheldon. His first amendment, which was approved, made counties eligible for the complete streets grant program. The second amendment offered by Senator Sheldon increased the allocation to counties (through CRAB) by \$190 million. This was not agreed to by the committee.

The adopted transportation package provides approximately \$202 million over 16 years – \$12.6 million per year. Estimated annual allocations to counties can be found [here](#).

With cutoff of transportation and fiscal bills on February 27<sup>th</sup>, several transportation committee bills are scheduled for executive action this week. HB 1757, increasing local option councilmanic vehicle fees from \$20 to \$50, has been passed on to rules. HB 1868, expanding county road funding spending authority, has also been passed on the rules committee. Of concern to counties, HB 1695, requiring use of recycled aggregates passed out of the House Environment Committee and is scheduled for hearing in the House Transportation Committee on Feb. 24<sup>th</sup>.

Please contact Gary Rowe if you would like more information about any bills.
